I received the 36 new Soviet maps of parts of the Antarctic which you had agreed to send while you were in Washington, and have had photocopies made of each of the maps for our use. The maps are being returned to you under separate cover. If we have kept these maps beyond the time you anticipated, I want to apologize; I assure you that we have made maximum use of them and certainly appreciate the loan. Many thanks for your cooperation in allowing us to have the maps for photo-reproduction.

If  receives other issuances from the Soviet Union, we would appreciate being advised of them and perhaps being allowed to make photocopies as in this case.

Sincerely,

25X1A9a
